WHO IS WARNE:

SHOOTERS AT HEART - We are shooters who create, design, sell and use our products. We enjoy the outdoors and all aspects of the shooting sports. We are proudly based out of the Pacific Northwest in Tualatin, Oregon. Our products are made here in the USA and we are completely hands on during the whole manufacturing process. The Warne® brand has been and always will be “built by shooters, for shooters”.

Lifetime Warranty

All Warne Scope Mounts carry our quality guarantee against damage or defects in workmanship for the life of the product.

No Receipt, No Warranty Card, No Package – No Problem.

We will repair or replace (at our discretion) your Warne product in the event it becomes damaged or defective during normal use at no charge to you.

High quality scope mounts & exceptional customer service are our top priorities.

We want you to be satisfied and confident that we stand behind our products round after round.

ICON LEGEND

Look for these icons throughout the catalog to find which of these benefits and features fit your needs.

7075 billet aluminum has the high, strength-to-weight ratio, required for ultra-strong and lightweight mounts. Used in the aerospace industry, 7075 exceeds military specifications.

Hardcoat anodize prevents wear during extreme use.

Epoxy powder coat finish that creates a durable weather-proof and long-lasting finish.

Designed to offer a good strength to weight ratio, attractive finish and high value to shooters.

Durable and reliable for the hunt of a lifetime.

Quickly switch between scope and iron sights, swap scopes or remove scope for easier transport and storage. Toolless design for installation and removal.

Adds protection and keeps the product looking new for greater long term value.

Large capacity allows for maximum round count while maintaining USPSA maximum magazine length limit.

Confidently remove and re-mount your scope while maintaining the same point of impact.

Allows the most ergonomic shooting position for MSR's with an optic.

Strength and dependability for law enforcement and military use.

Modern preformed fit that keeps its shape.

Reduces abrasion and wear while giving a unique color finish to individualize your firearm.

Designed specifically to excel at long range precision and extreme distance shooting.

Reinforces thread engagement, eliminating stripped screws.

Highest quality materials - finishes and features that competition shooters demand.

Engineered to be 30-60% lighter than similar mounts.

Superior strength and clamping characteristics specifically formulated for scope mounts.

Better strength and toughness than carbon steel, ideal for hand tools.

Mid capacity allows for additional round count in an easy to carry size.

Made of steel for the strongest foundation available.

Designed with no top button allowing a more comfortable fit when wearing over the head hearing protection.

M-Lok® picatinny rail interface to fit various hand guards for mounting accessories.
M-Lok is a registered trademark of Magpul.

Engineered to provide world class performance at the range or in the field.

Designed to withstand anything Mother Nature dishes out.

Moisture wicking Sport-Tek® 3.8oz polyester fabric.

Torque wrench allows for aspecific and consistent tightening of various fasteners.

Lightweight and roomy design.

NATO tests show that this attachment method increases repeatable alignment. These mounts are Weaver style and Mil-Spec 1913 compatible.

Zero additional capacity adds additional strength and cosmetic appeal.

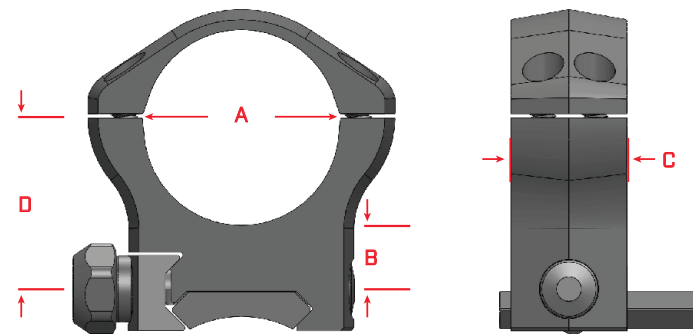

WHY WE DESIGNED THESE:

LIGHTWEIGHT & ELEMENT PROOF - We engineered Warne® Mountain Tech™ as a lightweight and rugged scope ring design that is equally at home on a mountain rifle or precision target rifle. Featuring 7075 aluminum construction and stainless hardware to withstand the punishing conditions Mother Nature can dish out. (DESIGN PATENT D802703)

FINISH COLOR LEGEND:

Finish color is determined by the specific letter at the END of the part number. All part numbers are available in matte finish (M) and part numbers available in cerakote burnt bronze will have a (BB) notated above. Final part number example: 7201M is matte black and 7201BB is burnt bronze finish.

WHY WE DESIGNED THESE:

VERSATILITY & STABILITY - Warne® Mountain Tech™ rails offer shooters the advantage of a consistent mounting platform across multiple firearms, enhanced ability to adjust proper eye relief and superior alignment of ring mounts. With self-centering hardware and aerospace grade materials, our Mountain Tech™ rails provide a lightweight and robust platform for your rifle.

MAXIMA[®]

SCOPE BASES

WHY WE DESIGNED THESE:

STRENGTH & VERSATILITY - Warne[®] Maxima[®] steel bases are the strongest and most versatile mounting system available today. The simple low profile design along with steel construction is a significant upgrade from any other 2 piece bases.

BEST USES:

MAXIMA[®] HORIZONTAL™

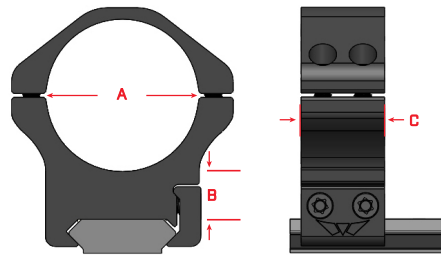

WHY WE DESIGNED THESE:

THE NEW STANDARD - Warne[®] Maxima[®] Horizontal™ Rings evolved from the concept of incorporating the world renowned performance, materials and reputation of Maxima rings in a more traditional, horizontally split configuration. Maxima Horizontal rings include several design features that enhance performance, ease installation and include the return to zero guarantee that Warne is known for.

KEY FEATURES:

BEST USES:

PART NUMBER	RING HEIGHT	FITS OBJECTIVE SIZE* (General Ranges)	DIMENSION A	DIMENSION B	DIMENSION C	WEIGHT	RING STYLE
500M	Low	20-36mm objective	1 inch	.250"	.650"	4.9 oz	FIXED

515M	High	50-56mm objective	30mm	.525"	.650"	6.9 oz	FIXED

MAXIMA[®] VERTICAL

WHY WE DESIGNED THESE:

INCREDIBLE HOLDING POWER & ELEGANT PROFILE - Warne[®] Maxima[®] Rings have proven to be the strongest scope rings on the market. The vertically split design offers robust simplicity and ease of installation. American made quality and precision at an affordable price make Warne[®] Maxima[®] scope rings the best in their class.

MAXIMA®

TIKKA—CZ—RUGER

Warne's Maxima® grooved receiver rings are solid steel, vertically split rings that handle even the most punishing recoil, or large, heavy scopes.

WHY WE DESIGNED TIKKA RINGS:

SIMPLICITY! - Tikka rifles have a grooved receiver that allows for a dovetail ring to mount directly to it, negating the need for a base.

Tikka Rail and base options:

76T3M - Aluminum rail for Tikka T3, T3X models (page 6)
76T3-20MOA - 20MOA aluminum rail for Tikka T3, T3X models (page 6)

M6T3M - Steel rail for Tikka T3, T3X models (page 24)

M6T3-20MOA - 20MOA steel rail for Tikka T3, T3X models (page 24)

M9T3M - Steel Weaver style 1 piece base for Tikka T3 models (page 9)

M932/932M - Steel Weaver style 2 piece bases for all flat top Tikka models (page 9)

CZ 550

CZ 527

WHY WE DESIGNED CZ RINGS:

DIRECT FIT UPGRADE - Designed to fit the 19mm 550/557 and the 16mm 527 integral dovetails.

11mm Picatinny Rail Adapter Options: (page 6)

7755M - 15MOA rail for CZ 452/455 models

7757M - 15MOA rail for CZ 457 models

WHY WE DESIGNED RUGER RINGS:

MODEL SPECIFIC FIT - Sold in pairs, Maxima® Ruger rings are packaged in model specific configurations to fit Ruger's proprietary dovetails.

MAXIMA[®]

RIMFIRE

WHY WE DESIGNED THESE:

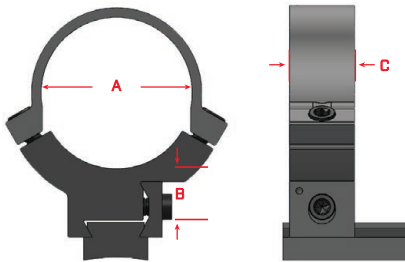

OVER BUILT FOR THE TASK - The Warne[®] Rimfire rings were created to fit both the 3/8th inch and 11mm dovetails found on many common rimfire rifles. Featuring a unique 70/30 horizontal split design, these steel rimfire rings are the best available.

Warne Tip: When installing either style Rimfire rings, be sure to notice which direction the small dot on the side clamp is facing. If it is in the 'up' position the rings will fit a 3/8" dovetail and if the dot is facing 'down' it will fit an 11mm dovetail.

KEY FEATURES:

BEST USES:

SKYLINE™

PRECISION SHOOTING ACCESSORIES

PRECISION MOUNT

WHY WE DESIGNED THESE:

1 PIECE MODULARITY - The Warne® Skyline™ Precision Mount has been engineered from the ground up with the precision rifle shooter/competitor in mind. Machined from 7075 T6 aluminum billet, featuring 2 integral recoil lugs along with 4 mounting cross bolts and 10 unique accessory mounting locations, the precision mount easily handles the rigors of competition or hard use, military type environments.

- Precision Mount Data Card Holder - Attaches exclusively to the Precision Mount in right or left configurations, and gives shooters a major advantage by its mounting location and ease of use.
- Universal Data Card Holder - Easily attaches to the scope tube, in left or right configurations, for a universal fit. Data is displayed in a convenient location to make quick and accurate target transitions, and the articulating arm allows for low profile storage while not in use.
- Precision Mount Level - Attaches exclusively to the top of the Precision Mount, in left or right configurations, to keep the scope reticle consistently level.
- Universal Scope Mount Level - Easily attaches to scope tube, in left or right configurations, to keep the scope reticle level without changing position on the rifle.
- Precision Mount 0° Accessory Rail - Attaches exclusively to the Precision Mount in 0° & 45° configurations.
- Precision Mount 90° Accessory Rail - Attaches exclusively to the Precision Mount in a 90° configuration.
- Data Card Label Refill - Adhesive labels come in a 50 pack to replace when needed.

SKYLINE™

PRECISION SHOOTING ACCESSORIES

**7901M
PRECISION BIPOD PICATINNY**

WHY WE DESIGNED THESE:

BIPOD PERFECTION ACHIEVED - The Warne® Skyline™ Precision Bipod is the most functional, ergonomic and strongest bipod on the market today. Designed to attach to your picatinny or ARCA rail, the Skyline™ bipod allows the shooter to make quick, one-handed height adjustments, as well as smooth cant and panning ability for use on uneven terrain or less than ideal positions.

- Quickly attaches to any Picatinny type rail [7901M] or ARCA rail [7902M]
- Rapid deploy legs lock at: 0°, 45°, 90°
- One handed adjustability
- 22° total cant/44° total pan
- Panning movement can be disabled, allowing only cant.
- Design Patent 10,408,555 & 10,794,655

PRECISION BIPOD EXTENSION LEGS**
Additional 3" of height, giving an overall 12" of total lift.

To extend the Bipod legs, simply pull out to desired height. Legs can be retracted one position at a time by pressing in on the height ratchet lever. To fully retract legs, press in on the ratchet lever AND while holding in, press down to retract.

- Standard Leg Extension
min height: 6.9"
max height: 9.1"

TACTICAL

MSR 1 PIECE MOUNTS

WHY WE DESIGNED THESE:

STYLISH 1 PIECE CANTILEVER MSR MOUNT - Designed to have the "Ideal Height" for Modern Sporting Rifles, the X-SKEL® places the optic at the proper height and forward position on AR platforms. Skeletonized design along with steel hardware and threaded inserts provides a lightweight and rigid mounting platform.

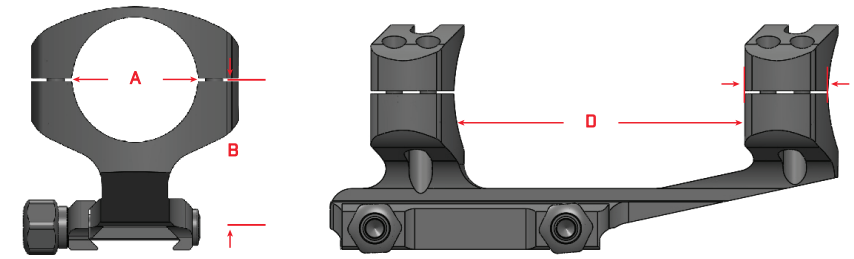

- The X-SKEL® Mount is our most popular one piece mounting system used in competition and hunting trips worldwide.
- The LR-SKEL Mount offers 20 MDA built-in slope for long range precision shooting. This allows additional elevation adjustment in your optic when shooting ranges over 600 yards.
- The SUPER HIGH X-SKEL® Places optic at correct height for heads up/CQB shooting positions.
- The QD X-SKEL Patent pending dual quick detach levers for fast toolless installation and removal.
- The Rapid Acquisition Multi-Sight Platform, or R.A.M.P., is our Gen 1 cantilever-style scope mounting platform that allows correct scope installation on the popular AR-15 rifle, and also offers unique 45° mounting rails on both sides of the optic.

WHY WE DESIGNED THESE:

VERSATILE RED DOT RISER - With the increasing number of electro optics being used, finding a compatible mounting system can be confusing. We designed our modular Red Dot Riser to fit a wide range of different optics based on the mount footprint or attachment style. All riser mounts that we offer share a robust mounting base, while the top is engineered specifically for different red dot styles.

WHY WE DESIGNED THESE:

VERSATILE RED DOT RISER - Warne® Handgun Magazine Extensions are available in both increased capacity models, and zero capacity models for 10 round capacity limits. These extensions feature an ergonomic shape that allows for better insertion, and finger grooves, allowing the magazine to be stripped from the handgun if needed.

- Machined from 6061 T6 aluminum billet
- Type 2 hardcoat anodize finish for abrasion and corrosion resistance
- T-10 Torx head screw and washer for retention
- Designed and Made in USA

WARNE

MOUNTING TOOLS

WHY WE DESIGNED THESE:

THE RIGHT TOOL FOR THE JOB - Designed to make the installation of our mounts and accessories easy, Warne's Range Tool and fixed torque wrenches make a great addition to every range bag.

TW65 TORQUE WRENCH 65IN/LBS

This tool allows the shooter to precisely tighten the 1/2" hex nut (on Warne's MSR & Tactical Mounts) to the proper torque setting of 65 in/lb. This is indicated when the red light is lit up and an audible beep has been heard.

RT-1 RANGE TOOL

Warne's Range Tool is designed to be the go-to multi-tool for every shooter's range bag. This compact and durable tool features 12 of the most popular driver bits to perform basic firearm maintenance and scope adjustment in the field.

- Aluminum handle
- Chrome vanadium steel bits
- Pin remover size: 0.10"
- Flat blade screwdriver
- #2 Phillips head screwdriver
- Allen head sizes: 0.05", 1/16", 5/64", 3/32", 1/8" & 5/32"
- Torx driver sizes: T10, T15 & T20

WHO IS TEAM WARNE:

THE BEST AMBASSADORS - Team Warne® is simply the best of the best. We have countless shooters across the globe sporting our logo and running our gear. These 15 shooters are just a small handful of those who love and trust Warne® products. They are amazing individuals, the salt of the earth people, who have been using our products for years and who go out of their way to help new shooters and educate them on the Warne® brand.
