PRO-SHOT HISTORY

★ *Quality Goods* ★

In 1982, our founder John E. Damarin started Pro-Shot Products with one goal, to make quality firearms cleaning accessories that worked faster and easier. From the very beginning he was a very avid shooter, with pistols, rifles, and shotguns.

I remember as a young child around the fall of 1981 my father talking about our shooting buddy. He had gotten a plastic patch holder stuck in the bore of his gun when cleaning during a match between rounds. Then he told me how he had to heat the gun over the stove to get the patch holder out once he returned home. That's when he told me, "Son, we can make gun cleaning accessories better than that." So from this great event from our shooting buddy, in our small one car garage, Pro-Shot was born.

My father always liked to refer to Pro-Shot as the Mom and Pop of gun cleaning. He knew we were always at the front of the industry for quality and service. We offered the best we could manufacture, and at a reasonable price for all shooters.

With our many trips to the ranges and shooting events all over the country as a young child, I had already seen that competition shooters thrived on accuracy. To get the desired accuracy, shooters asked for superior quality American made products.

Our family would also manufacture Pro-Shot in our home town of Taylorville Illinois! The Damarin's family commitments to higher standards and new ideas of gun cleaning have brought about many industry changes. From new quality cleaning products to packaging ideas, the shooting industry has seen many changes made by one family with one goal!

Our family tradition continues, as does our traditional logo, which represents our commitment and heritage for offering excellent quality and service! However, our tradition in innovation and excellence does not stop. We are constantly updating products and manufacturing new products to keep Pro-Shot in the forefront of the shooting sports industry.

Pro-Shot accessories are offered through an extensive network of retailers in North America and around the globe! From the once a year hunter, to the highly competitive bench rest shooter, we have become one of the most sought after accessory when a shooter is just plain and simply looking for the best firearms cleaning equipment available! We are the absolute benchmark for success when it comes to customer service, as we have the best order delivery rate in the industry!

Olympic Shooters, Law enforcement, Special Forces, and four World Armies depend on Pro-Shot to clean their firearms for flawless operation and accuracy! We pride ourselves on our continued commitment to offer you the best products available for firearms cleaning.

We are the last family owned, traditional full line of firearms cleaning accessories left that is Made In America! Today we continue our family owned company, with Diana and (myself) son John. We still honor my father with his passing in 2005 by producing limited edition products that he always loved and enjoyed himself.

We appreciate your support and hope you enjoy the shooting sports as much as our family and dedicated staff!

Good Shooting

John Damarin
Pro-Shot Products
President

WHY PURCHASE PRO-SHOT PRODUCTS

WHY PURCHASE AND USE PRO-SHOT PRODUCTS FOR YOUR GUN CLEANING?

Pro-Shot Products is the leader, as well as the last family owned and operated full line of traditional gun cleaning supplies left in existence in America today. We have American Workers, manufacturing and distributing an American product, supporting their American families in our American economy! We are your "one-source" for all your gun cleaning needs and celebrated our 30th year of committed business with Global Distribution in 2012.

EXPERIENCE

Pro-Shot Products is now a second generation company, developed for shooters, by shooters. Owner & President John Damarin has been hands on with the company since he was nine years of age, from hand packaging product to hand stamping labels. Along with his Mother, Diana, they both are still fully engaged in this family tradition of Pride, Honor and "Passion for Perfection".

REAL PEOPLE, REAL SERVICE!

At Pro-Shot Products you will still find "real people" answering the phones, taking your orders and addressing all of your questions and concerns in a personal, yet professional manner. In addition each and every order gets hand packed, personally inspected and signed off on before shipping. Owners John Damarin and his Mother Diana still answer phones, take and pack orders and speak with their customers daily to ensure that the core of their quality of service is never sacrificed.

SHIPPING

Pro-Shot Products offers the fastest shipping and quickest turn-around time within our industry with all orders being shipped same day (24 hours) of being placed.

BACK ORDERS

Pro-Shot Products is PROUD to have experienced only one back-order issue since 1994 and that was due to exploding sales of a new product line introduced January of 2012. This is just one of the many benefits of being manufactured right here in the USA!

WE CAN SERVICE ANY CUSTOMER

From the retail customer to internet based, to the Ma & Pop shops that built our industry to the Farm Stores, Sporting Goods Stores, Collectors, Gun Smiths, Law Enforcement, Military, Homeland Security to the Private Clubs and Ranges. We offer a turn-key American Made Firearm Cleaning Solution to anyone within the industry.

MILITARY AND LAW ENFORCEMENT DISCOUNTS

Pro-Shot Products is both proud and appreciative of our Military and Law Enforcement agencies abroad and offer special discounts for our products as they are requested. We welcome and encourage all of our service men, women and agencies to contact us for this special saving opportunity.

WE ARE PROUD TO SUPPORT OUR TROOPS

Pro-Shot Products is PROUD to support the American Snipers (www.americansnipers.org) and The Wounded Warrior Project (www.support.woundedwarriorproject.org)

THANK YOU FOR SUPPORTING PRO-SHOT PRODUCTS

"Built on Commitment / Maintained by Integrity"

NEW

TRACE ERASER SPEAR TIP JAGS "BENCHREST QUALITY"

Pro-Shot's new Trace Eraser jags eliminate false indications of copper fouling left in the barrel caused by traditional brass jags. Aluminum Jag with special secondary coating treatment for added protection.

- Precision engineered Design and Function.
- Keeps patch in place while cleaning for maximum cleaning.
- Exact fit for each cal./mm.
- All rifle and pistol jags have #8/32 thread, expect .17 & .20 Cal. Which is #5-40 thread.

Jags are stamped according to each size for identification.

TORNADO BRUSHES

Often referred to as "The Gunsmith's Brush", Pro-Shot's Tornado brush has a special spiral-wound design that's highly effective for cleaning bores. The brass loops eliminate any bristle ends that could leave scratches, yet removes fouling without damaging bore. Spiral design reaches all of the hard to get spots. Stiff bristles remove fouling but will not damage bore. Heavy duty bore brush is great for heavily fouled barrels.

.17 CAL. PATCH HOLDER

Made specifically for small cleaning patches and .17 Cal./20 Cal. rods. #5-40 threads

PATRIOT SERIES HD NYLON BORE BRUSH

Stiff bristles remove fouling but will not damage bore. Heavy duty bore brush is great for heavily fouled barrels.

- Stiff heavy duty red, white, and blue nylon bristles.
- Will not flatten like standard brass bristles brushes.
- Made with solid Brass Core & Coupling.
- Stiff Colored bristles resist ammonia and oil-based cleaners.

WORLD FAMOUS PATCHES

Pro-Shot 100% Cotton Flannel Patches have become known worldwide for their superior cleaning power and consistency.

Why are Pro-Shot patches the best in the world?

- American grown finest quality Cotton milled in America.
- Consistent thickness, shape, and white in color.
- Designed to handle all solvent types, even harsh chemicals.
- Exclusive thread count weave designed to catch/trap more fouling.
- Finished both sides for extreme absorbency.
- Packaged in reusable zipped bags.

PREMIUM STAINLESS STEEL MICRO-POLISHED RODS

Why is a Pro-Shot rod the best in the world?

- Pro-Shot made to spec stainless steel is less hard than barrel steel.
- Heat Treated for strength and durability. Increases Rod life and performs with less rod flex during use.
- Centerless grinding process on all rods.
- Mirror finish on the rods prevents abrasive fouling and grit from attaching to the rod and carrying through the bore.
- Pro-Shot Cleaning Rods have two additional steps during manufacturing that differentiates them from anything in the world. Micro Polishing/Burnishing & Mirror Finish Polish.
- Micro Polishing/Burnishing builds the coating into the rod manufacturing process to make the stainless steel totally smooth. (jeweled finish)
- Proprietary handle design (Pat. Pending) allows rod to spin with rifling and clear high stock rifles easily.
- Easily handles harsh solvents with no rod deterioration.
- Each rod includes a patch holder or jag.
- Rod length is actual working length. (add 4 inches for handle)
- Shipped in plastic reusable tube for storage.

PREMIUM COATED PISTOL & RIFLE CLEANING RODS

- UltraTough Acetate Coating stands up to continual use.
- Coating does not vary in thickness like sprayed on coated rods.
- Color coded rods for easy identification:
 - Grey coated rods fit .22 Cal. - 6.5mm
 - Yellow coated rods fit .270 Cal. & Up
- One-Piece heat treated, polished, and coated spring steel rod
- Innovative, comfortable handle design
- Rod glides smooth on ball bearing handle assembly
- Includes patch holder for .22 Cal. and .270 Cal. models, and jag for .17 Cal. rods.
- Packaged in a reusable tube for safe storage
- Pro-Shot direct design allows all accessories to fit directly onto the rods. No adaptor needed.
- Coated rods are #8/32 thread and accept all major cleaning rod accessories.
- .17 Cal. rods are #5-40 thread.

SUPERIOR CLEANING ROD ACCESSORIES

MUZZLE GUARD

Quality made brass accessory protects your firearms while cleaning from the muzzle end. Centers the rods and protects the muzzle crown during cleaning. There are two different sizes available for use on Pro-Shot micro-polished cleaning rods.

ITEM #	FITS
MG1	SIZE #1 FITS .22 - .26 CAL. RODS
MG2	SIZE #2 FITS .27 & UP CAL. RODS

.17 CAL. PATCH HOLDER

Made specifically for small cleaning patches and .17 Cal./20 Cal. rods. #5-40 threads

ITEM #	FITS
PH17	FITS .17 - .20 CAL.

27/U ROD TO BRUSH SIZING ADAPTOR

Excellent accessory to use on a large diameter cleaning rod for pistol and rifle cleaning. Makes the alignment and transition from .250 diameter cleaning rods (.270 Cal. & Up Rods) to bore and chamber brushes totally smooth with beveled front. Eliminates open edge when using a brush on larger diameter rod.

ITEM #	FITS
AD2	ADAPTOR FOR .250" (.270 CAL. & UP RODS)

BRASS PATCH HOLDER

Brass Patch Holders are great for holding patches to clean the bore. Great for starting the cleaning process to apply solvent to the bore or chambers.

ITEM #	FITS
PHB	FITS .22 - .45 CAL.
PH30	FITS .30 CAL. & UP ROD

ROD STOP

Rod stops are an excellent accessory that can be used to set the rod to the exact length desired during use. Used in conjunction with our Muzzle Guards on micro-polished cleaning rods in pump, lever action, and automatic actions. Used to set the rod length for the cleaning tip (accessory), so it cannot be forced into the firing pin.

ITEM #	FITS
ST1	.22 - .26 CAL. RODS
ST2	.27 & UP CAL. RODS

.17 CAL./20 CAL. ROD TO .22 CAL. RIMFIRE RIFLE ACCESSORIES ADAPTOR

Used on .17 Cal. & .20 Cal. Pro-Shot Rods to clean tight bore .22 Caliber Rimfire Rifles. The adaptor allows you to use the standard # 8-32 threaded rifle accessories with the smaller diameter rod. NOT FOR USE ON CLEANING .17 Cal. Firearms. Adapts # 5-40 (.17 Cal.) threads to # 8-32 (.22 Cal. Rimfire) on Pro-Shot rods .17 Cal. and .20 Cal. rods.

ITEM #	FITS
17AD	#5-40 MALE ADAPTOR TO #8/32 (.22 CAL. RIMFIRE RIFLE ACCESSORIES)

SUPERIOR CLEANING ROD ACCESSORIES

BORE MOPS

These bore mops are 100% cotton and have a brass core. They are made of the highest quality construction possible. Mops can be used for quick cleaning and bore lubrication. Mops are especially excellent when using oil for bore lubrication because they create foaming action that helps in the lubrication process.

ITEM #	CHAMBER MOP
MPCH223	M16/AR15 .223 CAL.
MPCH50	AR10 .50 CAL.

ABOVE MOPS HAVE #8/32 THREAD COUPLINGS-STANDARD RIFLE THREADS

GUN BRUSHES

Great all around utility brushes. Can be used for cleaning, polishing, and restoring.

Nylon Bristles have the cleaning power to remove fresh carbon or powder residue inside or out of your firearm, but won't scratch your firearm's finish. Bronze bristles clean more stubborn residue on metal surfaces that require more aggressive scrubbing action like inside slides, receivers or locking lugs. You can use a cleaning patch over the bristles to help remove fouling during use. Stainless steel is best for aggressive cleaning of fouling other brushes won't touch. Use stainless steel on interior surfaces only, because it will scratch and mark most gun steels and finishes.

ITEM #	BRISTLE TYPE
GBB	BRONZE
GBN	NYLON
M-16	NYLON-DOUBLE END
BZDE	BRONZE-DOUBLE END
SDE	STAINLESS-DOUBLE END

BRASS GUN PICK TOOL/SCRAPER

Superior unique design that is an excellent pick or scraper. Works great for all of those difficult places to reach and clean, like under the extractor. Lets you easily run a patch down any grooved surface. Brass won't break or wear down like plastic tools and gives you better leverage and control for cleaning.

ITEM #	
GPT	GUN PICK TOOL/SCRAPER

ACTION CHAMBER CLEANING TOOL KIT

Designed to clean locking lug recesses, breech face, action rails & chamber. The cotton roll adaptor rod is used with cotton rolls to clean the locking lugs. The chamber rod may be used with a chamber brush or bore brush with a patch. A utility brush is included to clean the bolt face and locking lugs.

ITEM #	ACTION CHAMBER CLEANING TOOL KIT
ACT/KT	CLEANING KIT
ACT/R	REPLACEMENT COTTON ROLLS (QTY: 50/PKG.)

FLEXIBLE CHAMBER TOOL

The flexible chamber tool is used for cleaning semi-automatics and lever action firearms that are not easily taken apart. The tool has a flexible cable that is used through the loading or ejection port of the action to gain access to the chamber. The attachment of a bore brush with a patch wrapped around the brush does an excellent job of cleaning the chamber.

ITEM #
CH1

FLEXIBLE CHAMBER TOOL
10" WORKING LENGTH

CHAMBER ROD

Bore Guides should be used when cleaning a Bolt Action Rifle. Bore Guides protect the bore throat and keep cleaning solvent from getting into the trigger mechanism. Our "STOPPER" Bore Guides are made from aircraft grad anodized aluminum for quality and durability. The anodized aluminum sleeve holds the brass pin in place and does not work loose like plastic parts. The Sleeve Pin is made of brass. The delrin tips and ends screw onto the anodized red tube to fit firmly and center the rod during the cleaning process. ITEM# BG22-30 tips and ends are laser engraved for sizing identification: (White .22CF-.25 Cal.) (Black .26 Cal.-.30 Cal.).

THE "STOPPER" BORE GUIDE FRONT PREVENTS SOLVENT AND FOULING FROM RUNNING BACK INTO THE ACTION. ADJUSTS TO FIT ACTION LENGTHS PRECISELY.

AR PLATFORM BORE GUIDES

All other Pro-Shot bore guides are manufactured using delrin. Delrin is a chemical resistant material that will stand up to continual use. Available in the actions listed in the charts. All AR Platform Bore Guides have solvent port.

BLACK POWDER ACCESSORIES

BLACK POWDER ROD

Made of new Space Age material that is virtually unbreakable. 48" in length and 3/8" in diameter. Will clean .45 Cal. - .58 Cal. rifles. Made to cut to any length by the user. Rod has #10-32 thread.

ITEM #

IPS-48-BP BLACK POWDER ROD

BLACK POWDER BORE BRUSH

Special type of brass core/bronze bristle bore brush made for heavy duty bore cleaning of black powder firearms. The core of the brush is wound through the coupling. This prevents the brush from pulling apart when reversing the brush in the barrel.

ITEM #	CALIBER	THREAD
45BP 10/32	.45 CAL.	#10-32

54BP 10/32	.54 CAL.	#10-32
58BP 10/32	.58 CAL.	#10-32

BLACK POWDER JAGS

Button style brass jags with a steel threaded stud for extra durability. Jags have #10-32 threads.

ITEM #	CALIBER
J45-10/32	.45 CAL.
J50-10/32	.50 CAL.
J54-10/32	.54 CAL.
J58-10/32	.58 CAL.

BLACK POWDER WORM

The worm is the best in patch retrieval. Made with a heavy gauge steel wire screw attached to a brass base. Made for heavy duty use. #10-32 thread.

ITEM #

WRM-10/32 BLACK POWDER WORM

BLACK POWDER ADAPTOR

Allows #10-32 threaded accessories to be used on a #8-32 threaded rod.

ITEM #

BLACK POWDER ADAPTOR

AD8

#8-32 MALE TO #10-32 FEMALE ADAPTOR

BLACK POWDER BALL PULLER

This Ball Puller has a tapered tip with sharp threads for a good grip while pulling a ball from the barrel. Steel threads with a brass collar. For .45-.58 Calibers with #10-32 thread.

ITEM #

PUL2 BLACK POWDER BALL PULLER

FOULING SCRAPER

Fouling scraper is made of solid brass. A scraper will loosen compacted fouling and build-up. #10-32 thread.

ITEM #

S2 BLACK POWDER FOULING SCRAPER

SHOTGUN PRODUCTS

2 PIECE SHOTGUN ROD

Ultra high quality shotgun rod has non-swivel large brass handle with micro-polished stainless steel rod. Superior function and design make this our best multi-section rod ever! Comes with patch holder for all gauges. Available in 36" length for longer barrel shotguns and 30" length for shorter barrels.

12SC	12 GA
16SC	16 GA
20SC	20 GA
28SC	28 GA
410SC	410 GA

Quantity: 2 per package.

Many shotgun manufacturers recommend storing shotguns with the cocking springs tension let off. This can add to the functional life of the shotgun and keep it in optimum working order.

Our snap caps are made with beautiful brass heads, which have spring loaded firing pins for the ease of tension that is released when shotgun is fired.

Pro-Shot's quality brass snap caps have wool mops with natural lanolin that fit into the chamber area for chamber rust protection. Oil such as Zero Friction may be added to wool mop for extra rust protection.

(Mops are replaceable) Over and Under and Side by Side.

12 GA. SEMI-AUTO SNAP CAPS

Quality full brass spring loaded snap caps. Quantity 2 per package. Excellent for semi-auto, over/under, & side by side 12 Ga. shotguns.

I-STEP GUN CLEANER & LUBRICANT

- **Excellent For:** Lead, Powder, Plastic & Copper Fouling
- Repeated use protects the bore and lessens fouling and residue buildup
Makes gun bores & actions easier to clean
- **Cleans** and eliminates stiff actions, jamming, and loosens rusted parts.
- **Lubricates and Protects:** Rust inhibitors and special additives penetrate the metal and provide a corrosion barrier for superior rust protection
- **Synthetic:** Super Proprietary formula is based on a unique blend of NON-HAZARDOUS & ENVIRONMENTALLY FRIENDLY INGREDIENTS.

Pro-Shot's Revolutionary 1-Step in a 1 oz. Bottle with pinpoint accuracy! Now you can use one drop exactly where you need it without all the mess. Great for those areas otherwise unreachable with traditional applying methods.

COPPER SOLVENT IV

- Pro-Shot's Copper Solvent IV is a **Superior New Generation Formula** that is made specifically for copper and powder fouling, while providing rust protection for your barrel.
- Our **Next Generation Formula** has been developed and tested extensively to assure it's even superior over our last famous copper solvent.

How it works fast & effectively to clean your barrel:

- Our synthetic formula uses activated positively charged ion additives that have a special affinity for copper and its oxides. The positively charged ions search out the negatively charged copper and copper oxide molecules. They bond and release the copper from the surface of the bore to provide a superior clean surface without copper and powder fouling!
- Copper Solvent IV is a highly effective way to clean a barrel without the harsh and toxic chemicals used in traditional bore cleaners.
- Our new innovative formula is a **smarter, healthier, and environmentally safer** way to clean than the old brute force method of throwing harsh chemicals at copper fouling.
No offensive odor.

Improved Accuracy!

- A non-fouled barrel can give you improved accuracy. Our **NEW GENERATION FORMULA** can give you a totally fouling free barrel! **Available in 8 oz. bottle or 1 Gallon Bulk Can.**

French/English labeling available by request on the following products:
(Canadian Compliant)

1 Step-8

ZF-SPRAY-6

FOULING BLASTER

Safe for all Firearm Finishes

Synthetic Safe Degreaser/Cleaner

**Fouling Blaster Quickly evaporates & blasts away fouling!
Solves most all malfunction problems**

- Pro-Shot's Fouling Blaster makes cleaning modern firearms easier & Faster.
- Fouling Blaster cleans fast and will not harm plastic, wood, laminates, composites, rubber grips, or any other material including Camo finishes.

NOT FOR SALE IN THE STATE OF CA

CHOKE TUBE LUBE

Excellent for use on shotguns with choke tubes. Superior anti-sieze lubricating compound prevents stuck choke tubes and makes changing them easier.

ITEM #	CHOKE TUBE LUBE
CTL-SYR	10CC SYRINGE

PRO-GOLD LUBRICANT

ITEM #	DESCRIPTION
PGL-SYR	10CC SYRINGE
PGL-JAR	1 OZ. JAR

A special high-quality formula grease engineered for firearm lubrication and protection. Superior performance on stainless, chrome molly, nickel, and blued firearms. Prevents metal wear in the following areas: bolt action locking lugs, actions, frame rails, shotgun hinge pins, reloading tools, bearing, gear & camming surfaces.

Pro-Gold Lubrication benefits:

Easy to apply, clings to metal surfaces, doesn't gum up, extreme heat resistance, water resistant. Temperature operating range: 32F.

Excellent for:

Firearms, reloading tools, sports equipment, fishing tackle, compound bows.

SILICONE CLOTH (DOUBLE TREATED)

Our Silicone cloth has become a shooters favorite, made of double napped 100% cotton flannel and double treated with pure silicone. Removes fingerprints, potentially corrosive epidermal oils, polishes, and cleans. Packaged in a reclosable poly bag, staying clean and moist after use.

ITEM # SILICONE CLOTH
SILC 14" x 15" - 210 SQ. INCHES

ITEM # LEAD CLEAN GUN CLOTH
LCC 8.75" x 11.25" - 98.4 SQUARE INCHES/249.936CM

LEAD CLEAN GUN CLOTH

Excellent for Stainless Steel finish firearms.

Restores original luster, while removing lead, carbon residue, and tarnish. Cloth can be cut to size/patches for removing unwanted residue inside the chamber, cylinder, forcing cone, and the bore and choke area.

*** Not To Be Used on Blued Finishes.**

METAL CARE CLOTH (MAKES POLISH OBSOLETE)

Cleans all metal exterior on firearms including blued and stainless surfaces. Removes surface rust and tarnish. This Non-Toxic cloth also works great on cleaning and protecting knives.

ITEM # METAL CARE CLOTH
MMC NON TOXIC/ENVIRONMENTALLY SAFE

WIPE CLOTH

12"x12" non-treated cotton flannel cloth. Finished on both sides for absorbency. Can be used for wiping firearms or just about any object. Package contains 3 pieces.

ITEM # WIPE CLOTH
WIPE 12" x 12" - 144 SQ. INCHES
